**Science:-**

Written Work:

1. Do HOTS questions of ch – 1, 2 ,3
2. Read and learn ch – 1, 2 ,3.

Activity Work:-

Make a scrapbook using pictures and explanation on the topic given below

1. Research about Green Revolution in India. What is the meaning of it and how it came about?
2. Study vaccination charts of some children thoroughly and check what all vaccination have been given and why ?

Prepare a working model on any 3 topics:

1. Smart City Model
2. Pollution Control System
3. Renewable Energy Village
4. Save Electricity Automatic Street Light
5. Forest Conservation Model
6. Global Warming Demonstration
7. Biogas Plant Model
8. Plastic Recycling Process

**Note:** Complete all work neatly in a separate holiday homework notebook.

Use coloured pens for diagrams wherever required.

### Mathematics:--

1. **Task:** Imagine you are given a budget of ₹5,000 to plan a small summer weekend picnic or family get-together for 4 people.

**Deliverables:** Create a budget sheet (on an A4 sheet or chart paper) including:

- Cost of food items, travel, and entertainment (use realistic or researched prices).
  - Calculate the exact total expenditure using decimal operations.
  - Find the fraction of the budget spent on each category (e.g., Fraction spent on food , travel etc.)
  - Represent the expenses using a neat Bar Graph.
2. **Task:** Design a colorful Rangoli or Mandala art piece on an A4 sheet.

**Rules:** Your design must strictly include:

- At least 3 different types of angles (Acute, Obtuse, Right, or Reflex) clearly labeled.
  - Intersecting and parallel lines.
  - At least 2 lines of symmetry (draw them with dotted lines).
3. **Task:** Choose your favorite summer recipe (e.g., Mango Shake, Lemonade, or a simple cake) that serves 2 people.

**Deliverables:** Write down the recipe and its original ingredients. Then, use the unitary method and proportions to recalculate the exact ingredient quantities required if you had to serve:

- 5 people
- 12 people

**Note:** Present this creatively as a "Math Recipe Book" page with illustrations or photos.

4. **Task:** Track the daily maximum and minimum temperatures of your city (or any hill station) for 7 consecutive days in May/June.

**Deliverables:** Record the data in a clear tabular format.

- Find the Range of the temperature {Maximum-Minimum} for each day.
  - Calculate the Mean (Average) maximum temperature for the week.
  - Draw a Double Bar Graph comparing the Maximum and Minimum temperatures for those 7 days.
5. Learn and write tables 2 to 20( two times)
  6. Revise chapter 1,2&3.

**Note:** Do holiday work in clean scrapbook.
